

NEW Retail 30 Second OZONE Detection Kit

In just 3 Easy Steps, you will know if your Ozone generator is working.

*18 Individual per case

Part Number 1008069

When Ozone, from the Ozonator on your Spa, bleaches the blue indicator material to white, in 30 seconds or less, the unit is making enough Ozone.

3 Easy Steps

1. Turn the power off: Insert Ozone Detection tube inline with suction jet tube.
2. Turn the spa on for 30 seconds.
3. If the complete detection tube went from Blue to White – Ozone is present.

You're Done!

Reliable Value and Years of Nature Fresh Spa Water.
