January 25, 2006

Dear Nancy,

Thanks to you, my UltraPure ozonator is back in service and, as you can see, our twin grand-kids are again enjoying the "crystal" water of our pool with Grandma & Grandpa. On top of that, when you walk into our pool room, instead of it smelling like a Wisconsin Dells indoor water park, it seems as if spring shower had just passed through.

Why in the world anyone would invest in a swimming pool or spa without equipping it with one of your ozonators is completely beyond me. What I just described above is reason enough for me, but when you add into the equation the money saved in chemicals, there is simply no decision to be made . . . the unit pays for itself in a matter of years. (Incidentally, the parts per million of chlorine in my pool is less than the local municipal water supply!)

Well, I know you're busy and I don't want to take any more of your time. Thank you again for your great customer service, Nancy. And, thanks to UltraPure for a wonderful product.

Sincerely,

p.s. One final point: Even after an afternoon with Grandma & Grandpa, our two water princesses have hair as smooth and soft as angles, and the whites of their eyes are . . . well, they're white! J&J
